Action area 2.7. on Effective Multilateral Support

Feedback from the Break-out-session on 2.7. 18.03.2020
Setting the scene:

Enhancing the effectiveness of the multilateral development cooperation system requires behaviour change by both development partners that fund multilateral organisations, but also by multilateral agencies themselves.

Objective of Action Area 2.7:

Promoting effective multilateral support to deliver results at country level

That means:

a) Focus on country level impact of a better multilateral system
b) Need to reinvigorate «multilateralism in a complex environment

c) Importance of clearly articulating the niche in a complex, highly researched market, and avoid duplication (including through MOPAN, and others, UN, OECD work…)
SUBOBJECTIVE 1. Effectiveness of bilateral donors contributing to the multilateral system

Possible Activities:

(1) **Survey** of bilateral donors on how they value multilateral partners and when to choose to work through Multilateral system or not

(2) **Mapping and discussion of effectiveness challenges** of different approaches bilateral are using depending on their context and type of multilateral partners they support

SUBOBJECTIVE 2. Effectiveness of multilateral partners to deliver on the ground / at the country level as an effective system / to support development and the SDGs.

Possible Activities:

(1) **Mapping** of existing efforts to make an effective multilateral system;

(2) **Good practices** of how the multilateral system can help all practices to build trust and de-risk, or case studies about effective coordination with the private sector or other actors such as CSOs and MSH partnerships (IADB);

(3) **Identify champions**; including on transversal challenges, clusters of countries and regions with similar challenges.
